NOTICE OF HIGHWAY CLOSURE

V1 and V2, both tractor-trailer trucks, traveling Northbound on I95 in East Lyme. Approx. 1 mile south of exit 73, as traffic was slowing, V1 changed lanes from the left lane to the right lane and struck the rear of V2. V1 after striking the right rear trailer portion of V2, continued into the right breakdown lane and struck the metal flex beam guardrail. V1 then traveled over the guardrail along the right shoulder approx. 100' and rolled over to the right down an embankment, coming to final rest upside down. Op 1 and a passenger taken to L+M hospital for minor injuries.

V1 was transporting approx. 21,000 lbs of tomato sauce. The right lane was closed while emergency personnel were on scene. The left lane remained open. E. Lyme fire personnel, DOT, DEP, and Hazmat units were on scene along with Consumer Protection. It was determined there was no Hazmat issues.

State police and Dept. of Transportation have decided to remove the tractor-trailer unit at 2200 hrs. due to traffic safety concerns.

NOTE:

State Police and Dept. of Transportation along with a heavy duty wrecker service, will begin removing the tractor-trailer unit at 2200 hrs. I-95 North-bound at exit 72 will be closed for approx. 4 hrs. DOT along with local and State Police will have sign patterns diverting traffic flow off at exit 72, around this accident and back onto I-95 North-bound.
